Executed on launchready.cn mainland China infrastructure

MAPS, MEDIA, EMBEDS

Google Maps.

Loads the Google Maps JavaScript API from `maps.googleapis.com` and tries to render a map of Shanghai.

● Dependency failed to load — timed out after 8s

If Maps is blocked, the box above stays grey and never tiles.

Dependency

Google Maps

Loads from

maps.googleapis.com

Expected in China

The map is a grey box that never tiles, or an infinite loading spinner, because the Maps JS API is unreachable.

AUTH AND IDENTIFY

Google Sign-In.

Loads Google Identity Services from `accounts.google.com` — the script behind the "Continue with Google" button.

● Dependency failed to load — timed out after 8s

If Google Identity Services is blocked, no Google button appears here.

Dependency

Google Sign-In

Loads from

accounts.google.com

Expected in China

The "Continue with Google" button does not render or does nothing when clicked because the Google Identity script is blocked.
